

Boys & Girls Clubs of Snohomish County Inclement Weather Policy

When a school district is closed due to weather, the corresponding clubs will also be closed on the first day of closure. After that, clubs will try to open dependent weather conditions.

When the school district is delayed in the morning, the clubs' morning program may be delayed as well.

It is important to check the voicemail of the individual club regarding morning program cancellation. In the event of poor weather, we urge you to check our call your club to get the latest information.

For information on school closures, visit the school district websites:
